# Community Update

## Berrybank 1 Wind Farm Website

In July 2019, the announcement was made that Global Power Generation had awarded the design and delivery of the new website for the Berrybank 1 Wind Farm project to the local Ballarat marketing and media specialists, Hstudios. Hstudios has put in a huge effort leading up to the launch day and we are all excited to interact with the website that was officially launched on Friday 3rd July 2020. There is a wealth of information on the new site including community news, project newsletters, media releases, and all the publicly available supporting documentation for the project. We look forward to keeping you updated with all the new and relevant information as the wind farm develops and transitions into the operation phase. Please visit our new Berrybank 1 Wind Farm website at:

## Community Projects Update

**Corangamite Shire:** There are 15 projects that have been funded by the Berrybank 1 Wind Farm Community Benefit Fund, which are being managed by the Shire Council. We are pleased to announce that the Lismore Public Art Installation, Corangamite Energy Efficiency Program—Phase 1 and the Camperdown Botanic Gardens Projects are all complete. The Darlington Mechanics Hall, Terang Lake, Lismore Creek, Skipton Recreation Reserve, Bradvale Hall, Glenormiston South Hall, Northern Towns Tourism, Camperdown Theatre and Corangamite Energy Efficiency Program—Phase 2 Projects are all currently underway. The Skipton Public Art Installation, Derrinallum Recreation Reserve and Lismore Swimming Pool Projects are due to commence in 2021.

**Golden Plains Shire:** There are 4 projects that have been funded by the Berrybank 1 Wind Farm Community Benefit Fund, which are being managed by the Shire Council. We are pleased to announce that the Teesdale Turtle Bend, Golden Plains Economic Development, Tourism & Investment Strategy and Three Trails Projects are currently under way and the Streetscape Improvement Projects are due to begin in 2021.

## Drop in for a chat

Don't forget that you can drop in for a coffee and a chat on the first Wednesday of the month between 9am & 10am at Fairway Café, Lismore or on the second Thursday of the month between 10am & 11am at Through the Gate Café, Smythesdale if you have any questions about the Wind Farm or our Community Programs.

# Construction Update

## Wind Turbine Generators

On Friday 10th July, Berrybank 1 Wind Farm hit another milestone in receiving our last delivery of components for the Wind Turbine Generators from Keppel Prince in Portland, Victoria.

The installation and crane crews have been working hard over the past month to now having completed all the pre-installation works on the 43 turbines and have now also completed the main installation of a further 10 turbines bringing the total of completed main installations to 26 out of the 43 Wind Turbine Generators.

## On-site & Off-site Substation

Both of the Substations are progressing very well and are currently 90% complete. The civil works are nearing completion with the placement of blue metal and the finishing of drainage works. Pre-commissioning works are continuing on both Substations. The installation of the new lattice transmission tower and OPGW cable that connects the wind farm substation into the 220kv Ballarat-Terang transmission line is now complete.
